# about beetroot

**Beetroot is a family orientated company.**

Ryan and Darren Parker are trained in advanced carpentry and joinery.

They served full term apprenticeships and have continued to work in the construction environment. Over the past 25 years they have gained a wealth of knowledge and experience.

They are now able to use traditional skills fused with modern concepts to build beautiful luxury homes to the exacting and specific requirements of en vogue clients.

Committed to ensuring this is achieved in all our services we dedicate ourselves to each project and strive to produce excellent finishes using skilled professionals, quality tradesmen and materials.

# projects

enthusiasm, inspiration, creativity, consideration.

the future

**Beetroot Developments** to continue the excitement of being able to demonstrate our ability to carry out projects and to be inspired with creative challenges in a quest to expand our knowledge and skill.

To explore the practicalities and implications of using different materials chosen to function appropriately within construction with greater emphasis on and consideration for managing quantities and resources used to reduce waste and the impact on the environment.
